

Harrison & Clough

Pallet Racking & Shelving
Installation

West Yorkshire Warehouse Facility

Since 1899, Harrison & Clough has established itself as the UK's leading supplier of fasteners, fixings, hand and power tools. The company prides itself in offering the UK and European merchant sectors an unrivalled service.

Harrison & Clough currently have 140,000 sq feet of warehousing, over 52,000 product lines and over 6,000 tonnes of stock.

Avanta UK Ltd the storage equipment specialist, have historically worked with Harrison & Clough over the last decade and Director, David Beattie's previous company Pennine Storage of Bradford regularly supplied racking and shelving to the company.

Avanta UK Ltd have supplied all the pallet racking, two tier shelving systems and ancillary storage items for all 3 warehouses to the point where warehouse 3 was designed around the narrow aisle high bay pallet racking system and the number of pallet positions required rather than designing a warehouse and then trying to fill it with racking.

In 2011, Harrison & Clough were reaching capacity in warehouse 1 and needed an innovative solution to increase the number of pallet positions and Avanta UK Ltd successfully tendered for the project.

Project aim – To increase pallet storage capacity by over 100% in the same area (Achieved nearly 112%)

Project timescale = 5 Weeks

The project included: -

Dismantling the existing storage structure including all walkways, staircases, pallet racking including all associated walkways and two-tier shelving system.

All existing Shelving was purchased by Avanta and all existing Pallet Racking was stripped and re used / relocated within the new layout.

The combination of existing and new pallet racking designed to maximise space and resulted in improved storage density within the same footprint.

Brian Dent, Warehouse Manager commented that *"the work carried out by Avanta has resulted in a complete transformation in the warehouse operation and it all worked to the plan David presented when quoting for us. Harrison & Clough are committed to continually invest in improving our operation and growing the business".*

David Beattie of Avanta stated *"I am proud to have worked with Harrison & Clough over the years and this project has future proofed their storage capacity for the next few years at least. Our respective design and installation teams have done Avanta proud again and have delivered to plan."*

Avanta Pallet Racking

Avanta UK Ltd is one of the UK's leading companies who design, supply and install pallet racking systems. All Avanta racking systems are priced competitively and backed by our prompt professional service. All pallet racking systems need to be designed to accommodate the type of handling equipment used and the load capacity required. We will work with you every step of the way to ensure you have the pallet racking solution you require.

- **Pallet Racking**
- **Adjustable Pallet Racking**
- **Drive in Racking**
- **Narrow Aisle & Very Narrow Aisle Racking**
- **Push Back Racking**
- **Live Storage Pallet Racking**
- **Cantilever Racking**

We will help you select the right type of racking dependent on the following considerations:-

- **The type of goods you store**
- **The amount of floor space available for the racking installation**
- **The speed of throughput**
- **The type of handling equipment used**

Avanta UK is regarded as one of the UK leaders in designing, supplying and installing pallet racking systems used in a wide range of industries including wholesale, manufacturing and distribution. At Avanta UK we
