

Major UK Retailer

Retail Warehouse Office Installation

On completion of the purchase of a large warehouse facility in Doncaster a major UK Retailer had a requirement to create functional office space within the warehouse to house warehouse office staff.

Avanta UK Ltd proposed a 50m run of the propriety brand Komfire 75mm system.

The Komfire 75 solid panels are constructed from 2x 12.5mm plaster boards on 50mm galvanised steel studs with rockwool infill finished in vinyl. The Offices are 2.7m high with suspended ceilings inset at 2.4m. The glazing panels are 6.4mm laminated glass inset into aluminium frames and all doors were oak finished. All plumbing, decorations, floor coverings, suspended ceilings were installed by Avanta as part of the project.

David Beattie Comment: -

"This was a great contract win for Avanta UK and an enjoyable project to work on with a great client at on of their Northern Distribution Centres.

The Komfire 75 Office Partitioning System is quick and

easy to install for our trained installation team and offers a stylish and functional office space solution.

The build time for this partitioning system gives Avanta a major competitive edge and enabled us to complete the project ahead of schedule.

Aswell as the main warehouse office, Avanta UK created training rooms and offices upstairs using the same Komfort Office Partitions".

Avanta UK Ltd is one of the UK's leading companies who design and install office partitioning throughout the UK. All Avanta interior equipment and office partitions are priced quickly and competitively backed with our free no obligation site surveys.

We supply and install a comprehensive range of office partitioning systems including glass partitions and solid office partitions. Avanta UK Ltd are a Komfort approved contractor installing the whole Komfort range of office partitions throughout the UK at a competitive price.

For office refurbishment projects we take full responsibility for the project and manage it effectively for you. Our full turn key packages often include office partitions, furniture and associated building services including mechanical and electrical solutions as required.

At Avanta UK we are able to offer a comprehensive range of solid and glass office partitions at highly competitive prices. We recognise that our clients businesses are constantly evolving and, as such, so are the requirements for space distribution in their office. Our complete service includes full project management with a free, no obligation on site survey where we can show you exactly what is possible using office partitions within the existing framework of your premises.

With relocation of your existing business a costly prospect, we are also able to show you how your existing space can be redesigned to encompass style, optimise space, and maximise productivity.

Avanta UK are one of the UK's leading companies in the design, supply and installation of steel partitions; we cater for a wide range of businesses including warehouses, factories and offices.

We understand that in these industries time and space are at an ever increasing premium and so we offer our clients a complete package service that minimises any possible disruption to their business. Steel partitions are an excellent tool in redesigning your existing space and can provide additional security to businesses dealing with high risk stock. Our range offers single and double skin steel partitions and a host of other options including machine cages, anti collapse mesh screens and mesh partitioning and security cages.

If you find you need expert advice we offer a bespoke design service to our clients and a free initial site survey and quotation so we can recommend the best steel partitions for your requirements. With over 20 years of experience we are sure to have the solution for you.

Our national network of installation teams means that we can respond to your order without delay and we pride ourselves on our competitive pricing and selection of trusted manufacturers.
