

Anti-Static Workbenches

West Yorkshire Electronics Company

Avanta UK Ltd successfully tendered for 48 Antistatic workbenches for a Yorkshire based electronics manufacturer.

Working closely with the client Avanta UK designed and supplied: -

12 off Cantilever assembly workbenches with antistatic worktops, electrical service ducts, with a combination back panel.

36 off Heavy duty test workbenches with antistatic worktops.

All the workbenches were supplied built up so that they were ready to use. The benches were manufactured and supplied within the required 4 weeks.

The customer commented: - *"I have been impressed with the response from Avanta to my enquiry. They suggested the benches be supplied built up to minimize the installation costs and the salesman even helped off load the wagon for us."*

An Avanta employee commented *"We were delighted to supply this local company with such a quantity of workbenches for their new starters. It is refreshing that such a prestigious company is recruiting and helping the local economy"*

Avanta Workbenches

Workbenches are used in a wide range of environments and fulfil a multitude of uses. At Avanta, our wealth of experience means we can help you find the most suitable type of workbench for your needs whether you require workbenches for an industrial environment, an office or workbenches for any commercial workplace.

We specialise in enabling our clients to achieve well designed, space efficient and durable work spaces and working environments. We can supply workbenches that are included as part of a larger scale project, or as stand alone systems as required.

Why use Avanta for Workbenches?

The type of workbench that is most suitable for you will depend on a range of factors, primarily the intended use of the bench and the area available. Our free design service and site survey for all workbench installation projects means that we fully assess your requirements which enables us to recommend the most appropriate solution for your needs.
