Pallet Racking Project

Pallet Racking Project For
Large Home Delivery Specialist

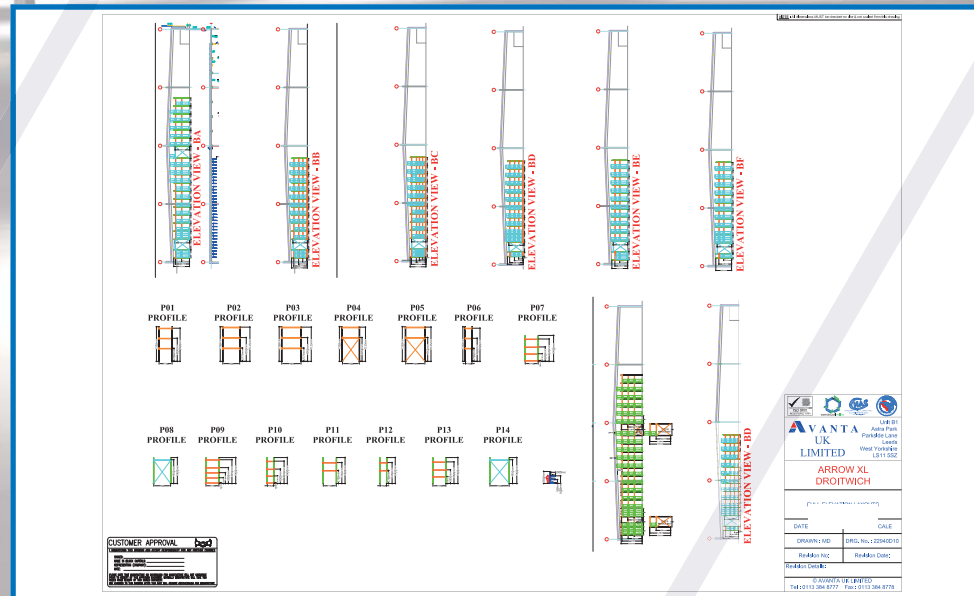

Avanta have successfully completed a large scale Pallet Racking project for a home delivery specialist in their new Midlands distribution centre.

To meet the needs of an ever changing retail environment the client is consistently investing in storage / distribution and IT infrastructure. This has resulted in a comprehensive network of hubs and vehicles.

Storage equipment specialist Avanta UK successfully tendered for the pallet racking project, including the sprinklers and an advanced smoke detection system.

As well as offering the 2 man delivery service the client can also offer extensive warehousing and storage solutions.

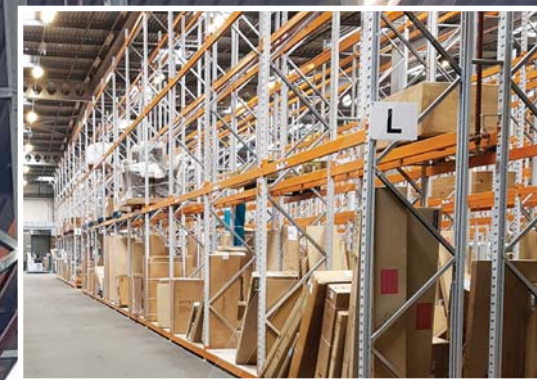

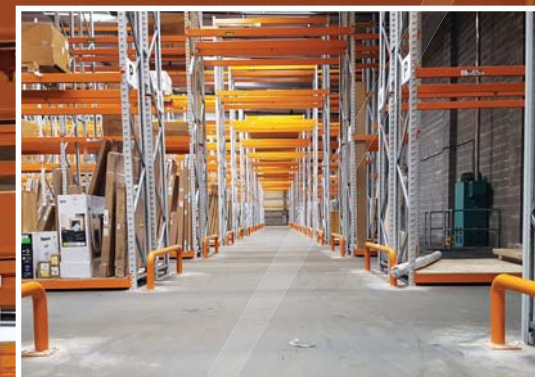

Mark Davison of Avanta commented:

"Whilst this project was challenging in terms of the deadline we were working to, our manufacturing partners, sprinkler team, electricians and racking installation teams performed fantastically well to meet the deadline."

A large industrial warehouse interior with a high ceiling, featuring a complex network of steel beams and a lighting system with large rectangular fixtures. The floor is filled with stacks of blue pallets, cardboard boxes, and other industrial equipment.

AVANTA

WORKSPACE CREATION

Avanta UK Ltd is an independent company with 20 years experience in designing and sourcing equipment. Long term partnership arrangements and rigorous appraisal of our portfolio of extensive manufacturing partners ensures that our clients have access to high quality and competitively priced standard and non-standard products.

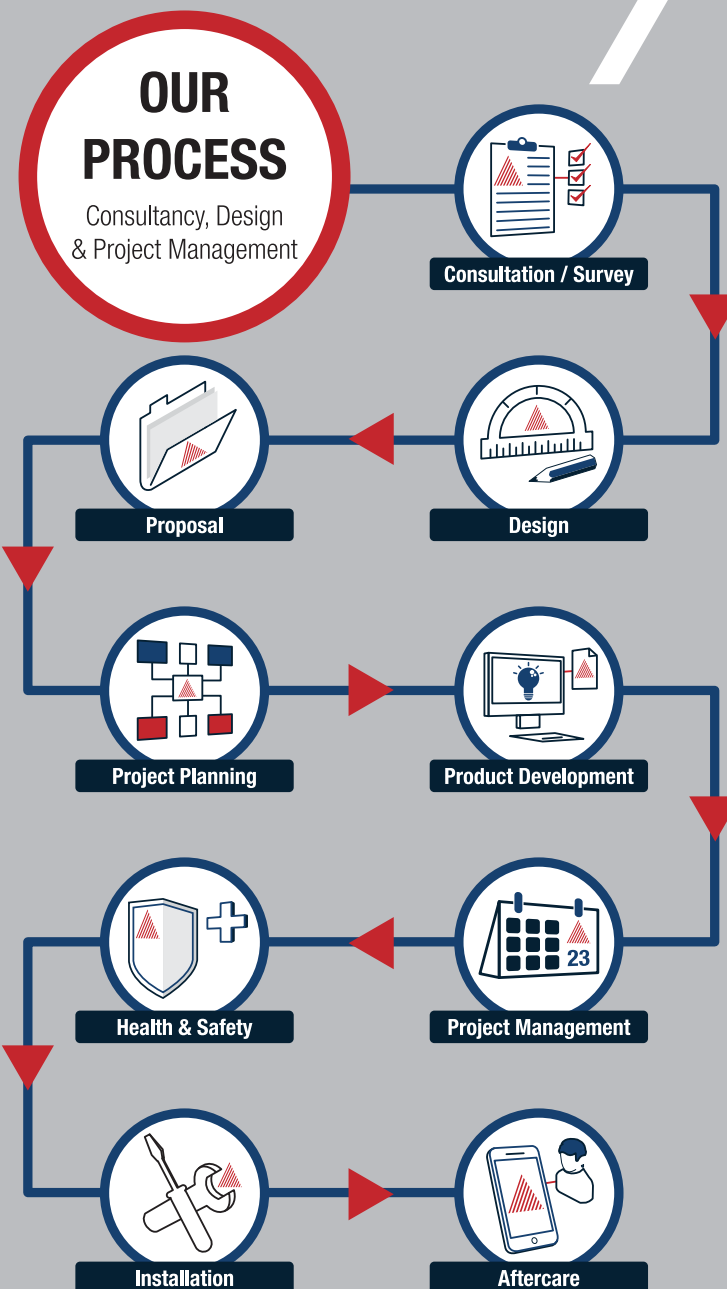

Our specialities include mezzanine floors, storage systems (including warehouse shelving, pallet racking, longspan shelving and mobile shelving systems) and interior solutions (including office partitions, office storage, steel partitions, mesh security cages and workbenches).

We cover the whole of the UK and work closely with the major manufacturers offering warranty, peace of mind and on going support.
