CASE STUDY

Secure Office Environment Created by Avanta UK

Leeds-based office interior fit-out specialist Avanta UK Ltd has completed an office transformation project for Next Plc at one of their South Yorkshire sites.

Working from a design by the highly respected Lonnie Lozano Architects (<https://www.loniellozano.co.uk/>) and in collaboration with intelligent network solutions company Data Installation & Supplies Ltd (<https://disnetwork.co.uk/>), Glidefield Engineering Solutions (<https://glidefield.co>) & NG Bailey (<https://www.ngbailey.com>) the brief was to convert a disused area into a Retail Loss Prevention Office Suite. The space needed to accommodate eight staff and include a self-contained breakout area with kitchen facilities.

The Project

Avanta UK acted as main contractor for the project, which ran over 6 weeks.

The works included the design, supply, and installation of:

- 52m² of plasterboard partitioning to form a media wall
- 58m² of solid office partitioning, complete with door sets, skirting, and decoration
- 120m² of raised access flooring with a carpet tile finish
- Stainless steel entrance balustrade
- Kitchen and appliances
- Breakout furniture (supplied by the client)
- Office furniture, including 8 desks (2 sit/stand), ergonomic chairs, mobile pedestals, and centralised storage cupboards.

We worked closely with the client's graphics team to ensure the office suite was on-brand and themed accordingly.
