CASE STUDY

Unilever

**Floor Coating
Solution**

The Avanta Floor Coating Solution for Unilever

The UK's leading paper merchant is a long-standing client of Avanta UK with multiple stock holding facilities across the UK already kitted out with Avanta Pallet Racking.

As part of the Avanta portfolio of warehouse interior products and services the resin floor surface solutions offered are proving very popular, whether part of a full turnkey project or as a single product and service offering.

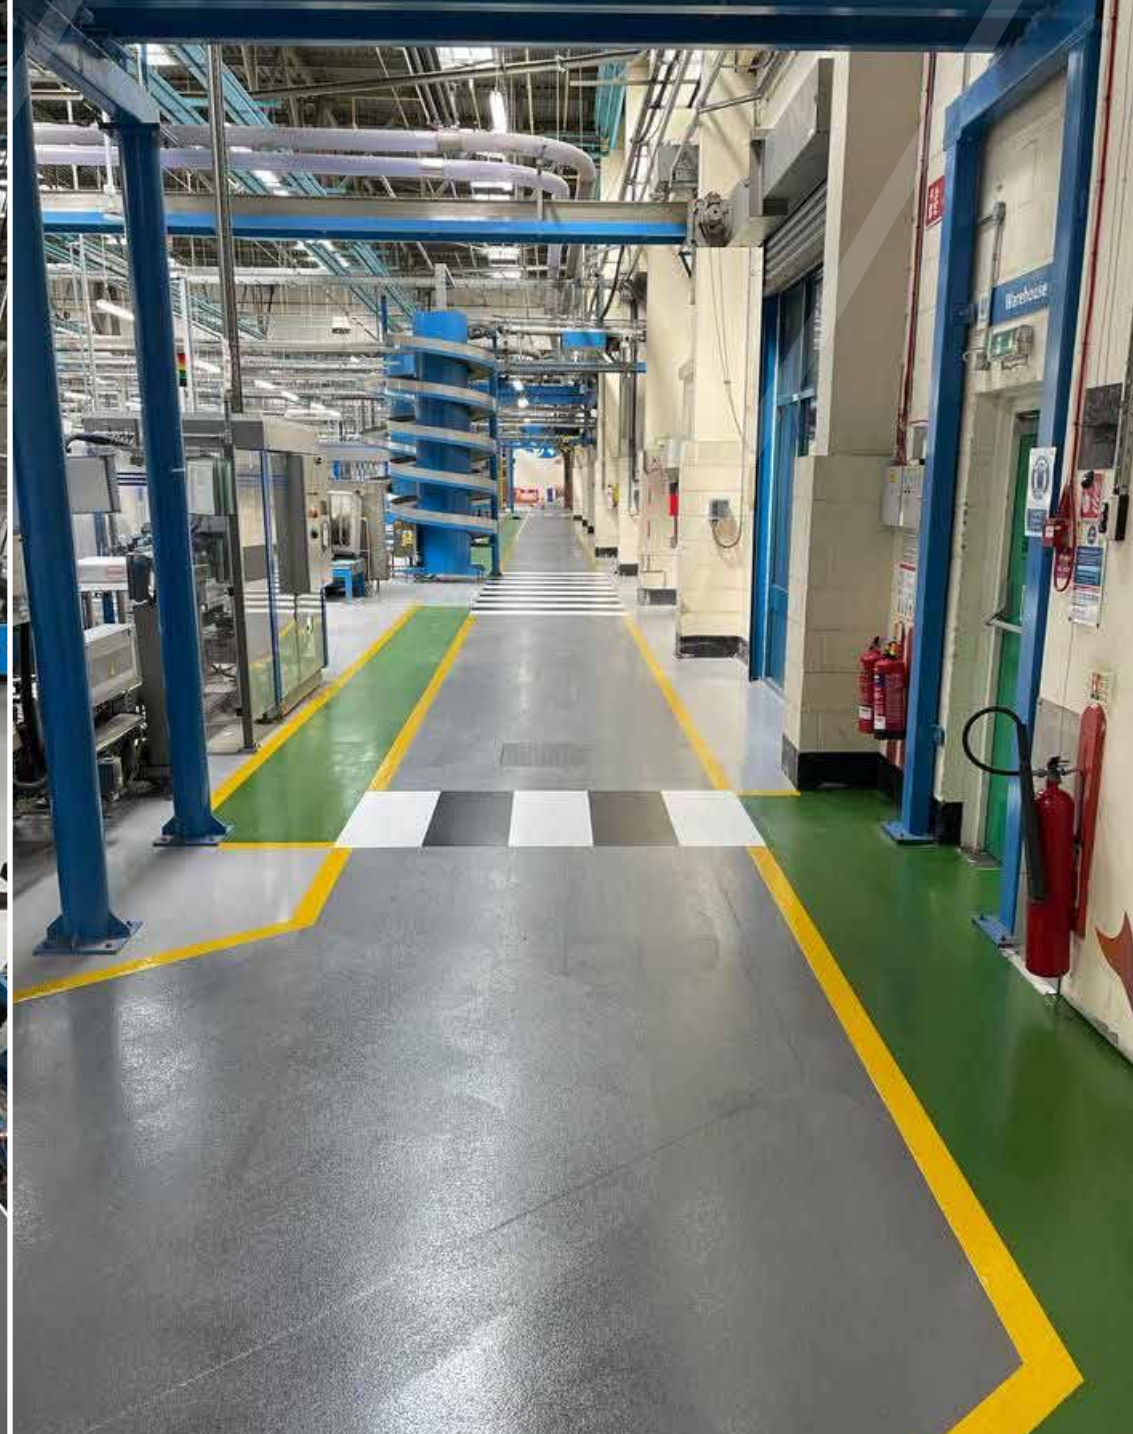

Avanta was approached by Unilever to offer a resin flooring solution for their Birkenhead site and works to be completed during a specific factory shut down.

The solution was circa 5,000m² of ResinFlor Epoxy and Polyaspartic Resin Coating System in multiple colours utilising a high-performance flooring applied to a concrete substrate.

The areas were treated by vacuum assisted diamond grinding prior to installing type 3 high build coatings with anti-slip finish. Line demarcation to Forklift Truck (FLT) routes and walkways and black and white zebra demarcations where FLT route crosses the walkway.

The works were completed on time during a 7-day shutdown period.

Avanta UK Ltd is an independent company with 20 years experience in designing and sourcing equipment. Long term partnership arrangements and rigorous appraisal of our portfolio of extensive manufacturing partners ensures that our clients have access to high quality and competitively priced standard and non-standard products.

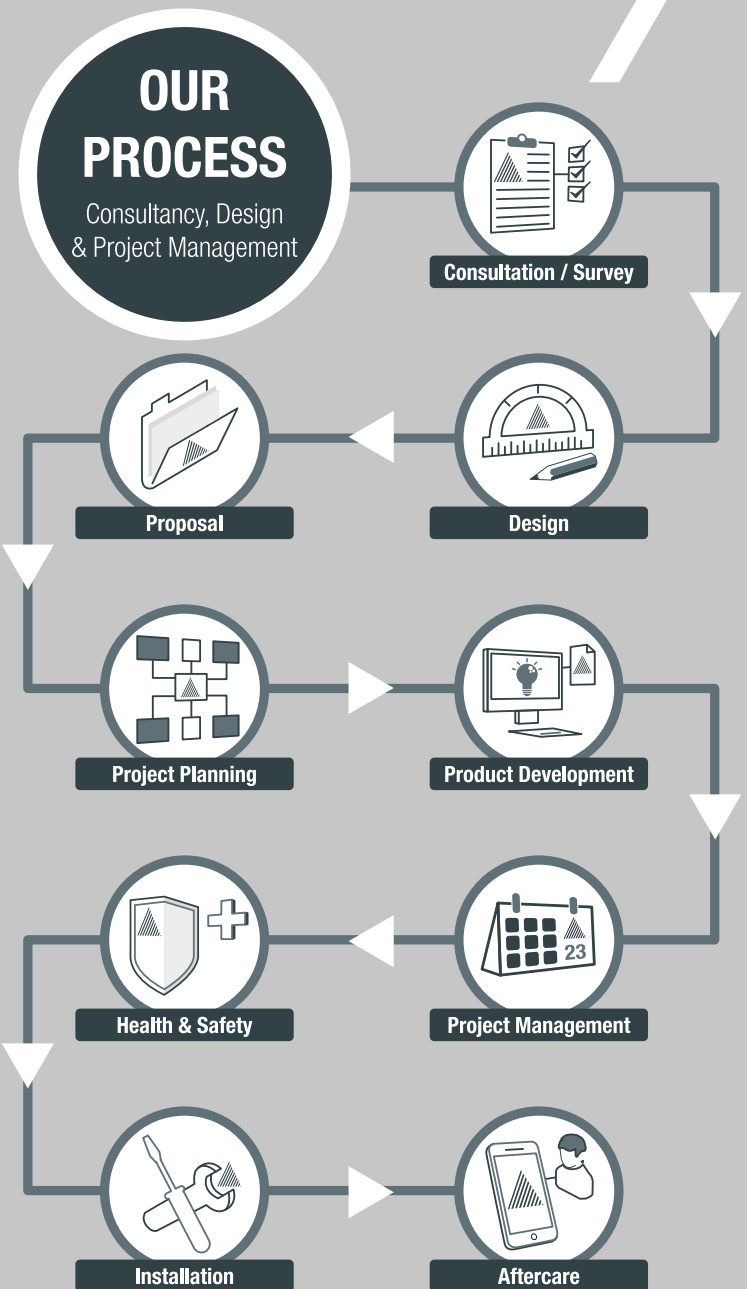

Our specialities include mezzanine floors, storage systems (including warehouse shelving, pallet racking, longspan shelving and mobile shelving systems) and interior solutions (including office partitions, office storage, steel partitions, mesh security cages and workbenches).

We cover the whole of the UK and work closely with the major manufacturers offering warranty, peace of mind and on going support.
